

XP-GTR1500LABX

Single Door Access Control Reader with Keypad, LCD and Built-In Controller

Product Description

MicroEngine XP-GTR1500LABX is a tightly integrated controller with built in Reader that enables and stylish design with touch sense keypad, it to become a totally independent solution. It has the ability to be configured through the built in user interfaces or through the software application .

When operating in the controller mode, the unit can be programmed to operate in different modes to suit different applications like door access, time attendance. In Reader mode, the unit will act as a dedicated entry reader that is connected to a Reader interface. Auxiliary reader inputs enable ease of connecting exit readers.

Product Features

- **Software Control**
Easy-to-use PC software for access control and time attendance.
- **Diagnostic**
Support built-in Web Browser.
- **Wiegand Interface**
Support Wiegand 26 bits interface for accessing card reader.
- **External Relay Unit**
Using external relay to connect door sensor, push button and EM lock.
- **Firmware Upgrade**
Able to upgrade firmware through software.
- **Device Discovery**
The feature allows the software to detect all devices connected within the IP network for configuration and installation.
- **Programming Access**
Support Programming through Keypad & LCD at the reader.

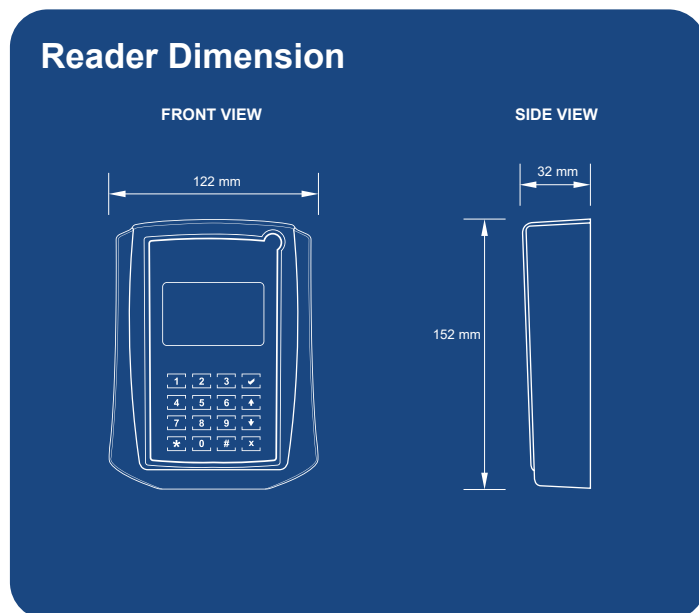

Data Sheet | Reader

Product Specification

Input Voltage	12VDC
Current Consumption	250mA
Processor	32-bits RISC
Clock Speed	80 MHz
Data Flash Memory	32 MB
RAM	512 KB
Built-in Real Time Clock with Battery	Yes
Watchdog Timer	Yes
Communication Ports	RS485 / LAN
Supported Interface	MAS-RBU
Reader Input	ABA Track 2, Wiegand 26
Display	128 x 64 graphic display with backlight
Keypad	Touch Sense Keypad with backlight
Operation Mode	Door Access, Time Attendance
Build-in Card Reader	Yes – MIFARE Card with MIFARE Sector Reading
Card Holder Size	1,500 User
Transaction Record	50,000
Anti-Passback	Yes (Local)
Dimension	152 mm (H) x 122 mm (W) x 32 mm (D)
